

ASSIGNMENT
B.Sc. SEM-2
EC- The Abiotic World–ENS-103
FEBRUARY- 2020

1. Planet Earth

- The Solar System
- Earth's Motion
- Interior of the Earth
- Concept of Bio-geochemical cycling

2. Lithosphere

- Earth materials
- Geochemical features of Rock
- Classification of Rocks
- Characteristics of Soil
- Earthquake
- Volcanic activities

3. Hydrosphere

- Characterises of water
- Environmental significance of water
- Chemistry of fresh and marine water
- Impurities in drinking water
- Origin of water
- Earth dynamics
- Tides and water currents

4. Atmosphere

- Chemical composition of Air
- Radioactivity in atmosphere
- Presence of oxygen
- Meteorology fundamentals
- Seasons in India
